Profile

Flutter developer with 2 deployed AI-integrated apps, AWS cloud internship, and GenAI Hackathon win among 40+ teams. Branch Topper with CGPA 9.65, actively piloting Smart Kirana AI with local businesses and solved 100+ problems on LeetCode.

Education

GMR Institute of Technology

B.Tech in Computer Science and Engineering — CGPA: 9.65

Rajam, Andhra Pradesh

2023 – 2027

Sri Chaitanya Junior College

Intermediate (BIEAP, MPC) — 98.5%

Palasa, Andhra Pradesh

2021 – 2023

Internship Experience

Hashtek Solutions

Cloud Computing Intern

Visakhapatnam, Andhra Pradesh

June 2025 – July 2025

- Provisioned and configured AWS EC2 instances on both Linux and Windows environments to support team application deployments.
- Designed and set up a VPC with public/private subnet architecture, route tables, and security groups to isolate and secure services.
- Managed IAM users, groups, and role-based access following least-privilege principles for controlled team access.

Projects

MindHeal | *Flutter, Provider, Firebase* | [GitHub](#)

Feb 2026

- Built and **deployed** a mental wellness application featuring a PHQ-inspired mood assessment that generates a personalized emotional profile per session.
- Developed a recommendation engine delivering **7 therapy modes** including breathing exercises for anxiety/anger/fear, guided bedtime narration, and calming melody therapy.
- Implemented modular state management using Provider, enabling clean feature separation and maintainability across the app.

Smart Kirana AI | *Flutter, Riverpod, Groq API* | [GitHub](#)

April 2026

- Built a Flutter-based inventory management app for small kirana shops with **multilingual voice input** (English, Hindi, Telugu) for hands-free stock updates.
- Designed a one-tap WhatsApp reorder system using URL Launcher to auto-fill supplier messages, simplifying supplier communication and inventory restocking workflows.
- Integrated Groq API for AI-driven reorder suggestions and configured low-stock push notifications; piloting with local kirana owners for feedback.

Achievements

Winner — GenAI Hackathon | *GMRIT × NIAT*

2025

- Won among **40+ competing teams** by building an AI-powered automation solution using Flutter, Riverpod, and Groq API.

Branch Topper — CSE, GMR Institute of Technology

2023 – Present

- Ranked **#1** in the **CSE department** with a CGPA of 9.65.

Technical Skills

Languages: Python, Java, Dart

Mobile Development: Flutter, Firebase, Riverpod, Provider, REST APIs

Cloud: AWS (EC2, S3, VPC, IAM), Linux

AI & APIs: Groq API, Prompt Engineering

Developer Tools: Git, GitHub, Android Studio

Problem Solving: 100+ problems solved on LeetCode

Certifications

Programming in Java — NPTEL (2024)

The Joy of Computing Using Python — NPTEL (2025)

Java (Basic) — HackerRank (2025)
